

ROUTE 9 | PASCOAG

Route 9 operates between Pascoag in Burrillville and Kennedy Plaza, serving Glocester, Greenville, and Smithfield. The route performs only marginally with more service provided than warranted by demand. The routes service levels will be adjusted to provide a better balance, and minor alignment changes would be implemented to operate service along a consistent alignment along Putnam Pike/Route 44 via a new park and ride lot located at Rite-Aid in the Johnston Plaza Shopping Center and Stop and Shop.

Proposed Changes

- Operate all service via a new park and ride lot located at Rite-Aid in the Smithfield Commons Shopping Center and Stop & Shop. Operate this service in both directions via a clockwise loop through the Stop & Shop parking lot and Commerce Street. The new park and ride lot would replace the current lot in the Smithfield Crossings Shopping Center, which the shopping center no longer wishes to host; service would no longer enter Smithfield Crossing Shopping Center.
- Provide three AM inbound and three PM outbound trips, with times adjusted to better match commuter schedules, plus one midday round trip.

Before and After Statistics
